

New BG-M Series Rear Panel

900 SERIES AMPLIFIERS

30-120W Modular Mixer/Amplifiers

60-240W Modular Power Amplifiers

SERIOUS AMPLITUDE.

WHY DO TOA'S AMPLIFIERS CONTINUE TO BE THE INDUSTRY'S FAVORITES? We think it's because we strive to give systems contractors *exactly* what they need: out-of-the-box reliability, easy configurability, and committed customer service.

Want an amplifier you can install and forget? TOA uses industrial-strength components, with individual parts tested prior to assembly. You won't get a call back. But if you ever do, our amps are covered by the industry's best 5-year warranty.

Got an off-the-wall system to design? With 47 modules, our amps are easy to configure. And now there's even a module slot in our new BG-M Series mixer/amplifiers. These feature-rich amps are available in models from 15 to 120 watts.

To get one of our *updated* Module Guides for free, just call, or visit www.toaelectronics.com.
