

# HX-5

**Need tighter coverage?  
NO PROBLEM**  
Change the dispersion angle in seconds!

**60° Mode**  
Widest Dispersion

**45° Mode**  
Wide Dispersion

**30° Mode**  
Medium Dispersion

**15° Mode**  
Narrow Dispersion

**Mixed Angle Mode**  
Variable Dispersion

## A Whole New Angle on Sound!

**IF YOU DESIGN AND INSTALL SPEAKER SYSTEMS** using conventional two-way box speakers, you know that pattern control in the voice frequency range can be difficult to manage, especially in reverberant spaces. The **TOA HX-5** offers a radically different approach to speaker design with four adjustable dispersion angles — 60°, 45°, 30° and 15° — that you can change in seconds! Best of all, you get pattern control below 1kHz in a compact and lightweight enclosure that's perfect for a multitude of applications. Think of it as the most versatile **"building block"** speaker in your toolkit.

Crisp, clear sound, high power handling, versatile mounting hardware and more. Contact your TOA sales representative for a hands-on demonstration. We think you'll like what you hear!

### **NEW! SR Series Line Arrays**

Designed by TOA's renowned **Z-Drive engineering team**, TOA's new Mid and Slim line arrays give you even more great-sounding options for your system designs.
