

INTERCOM

Our N-8000 Series IP Network Intercom systems support up to 1,280 intercom stations over existing data networks.

Three Technologies. One Source.

VIDEO

Our wide range of video surveillance products includes network cameras, digital video recorders and much more.

AUDIO

Our industry-standard rugged and reliable commercial audio products include digital amplifiers, paging speakers and telephone zone paging.

When your project calls for installing video surveillance, intercom and audio, TOA's one-stop shopping can make life easier. Thought we *only* offered rock-solid amps and speakers? Hardly! We've been a global leader in security solutions for over twenty years — which has given us a pretty good head start when it comes to bringing security technologies into the Internet age. Check out our new IP network-ready cameras, DVRs and intercom systems. They're easy to install, in stock, and priced right. You may know us for our amps and speakers, now get to know us for our industry-leading security products. For information, call 800.733.7088, or visit: www.toaelectronics.com.
