"Sure the recognition is cool,
but my audience still comes first."

**GREAT SOUND. IMPRESSIVE FEATURES. LEGENDARY RELIABILITY.
THIS MIC IS A HIT.**

NO WONDER. With features like an on-board scanner, our 64 channel Password® Series Wireless Microphones offer performance that's unmatched in their price range. Our 16 channel Scout® Series is a hit, too. Especially with A/V rental companies, fitness instructors, presenters, and others needing a low cost, portable system with plug-and-play simplicity. Best of all, both deliver the kind of reliability you've come to expect from TOA—backed with a *five year warranty*—the longest in the industry. For details visit www.toaelectronics.com.
