Sports Facilities

Gymnasium and Recreation Centres

We Know Audio

Gymnasium sound solutions.
Clear sound for the games and events.

Student activities within a school environment are enhanced by a quality sound system with intelligible audio.

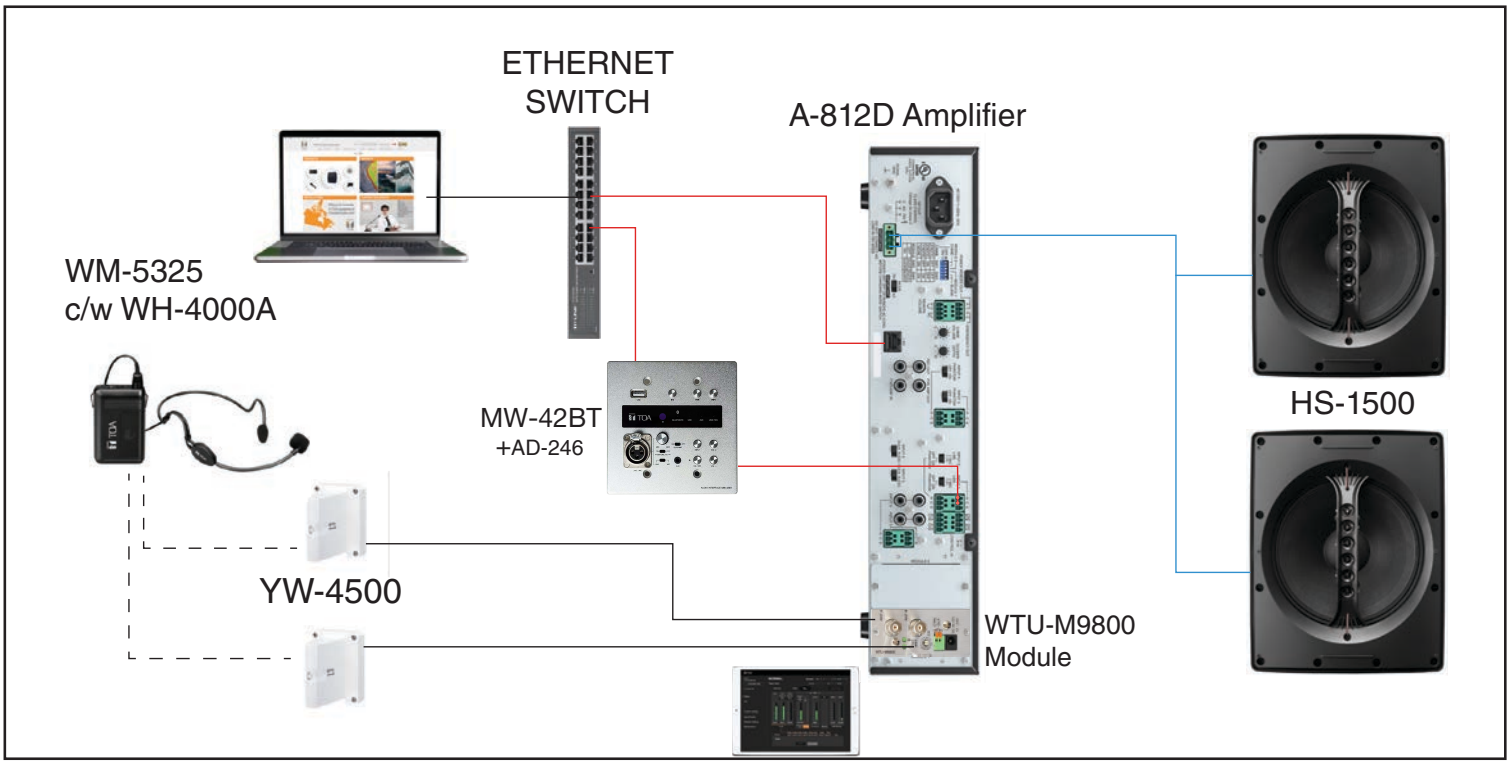

Educational institutions utilize their gymnasiums for many forms of student gatherings for such things as assemblies, sporting activities, and special events. When assessing an audio system for a small, medium or large gymnasium, a key factor is creating a sound atmosphere that is clear and easy to operate and capable of integration with the schools paging system for announcements and emergency messages.

Consider the variety of possible audio forms, speech, music, game announcements or even presentations, building an audio design for all occasions is vital. TOA's product offering of microphones, speakers and amplifiers along with additional sound altering tools, ensures that our solutions function clearly and maintain a high level of performance. TOA runs the gamut with previous installation from K-12 and post-secondary and continue to generate a sound quality with the proper equipment recommendations that complement the gymnasiums overall contours.

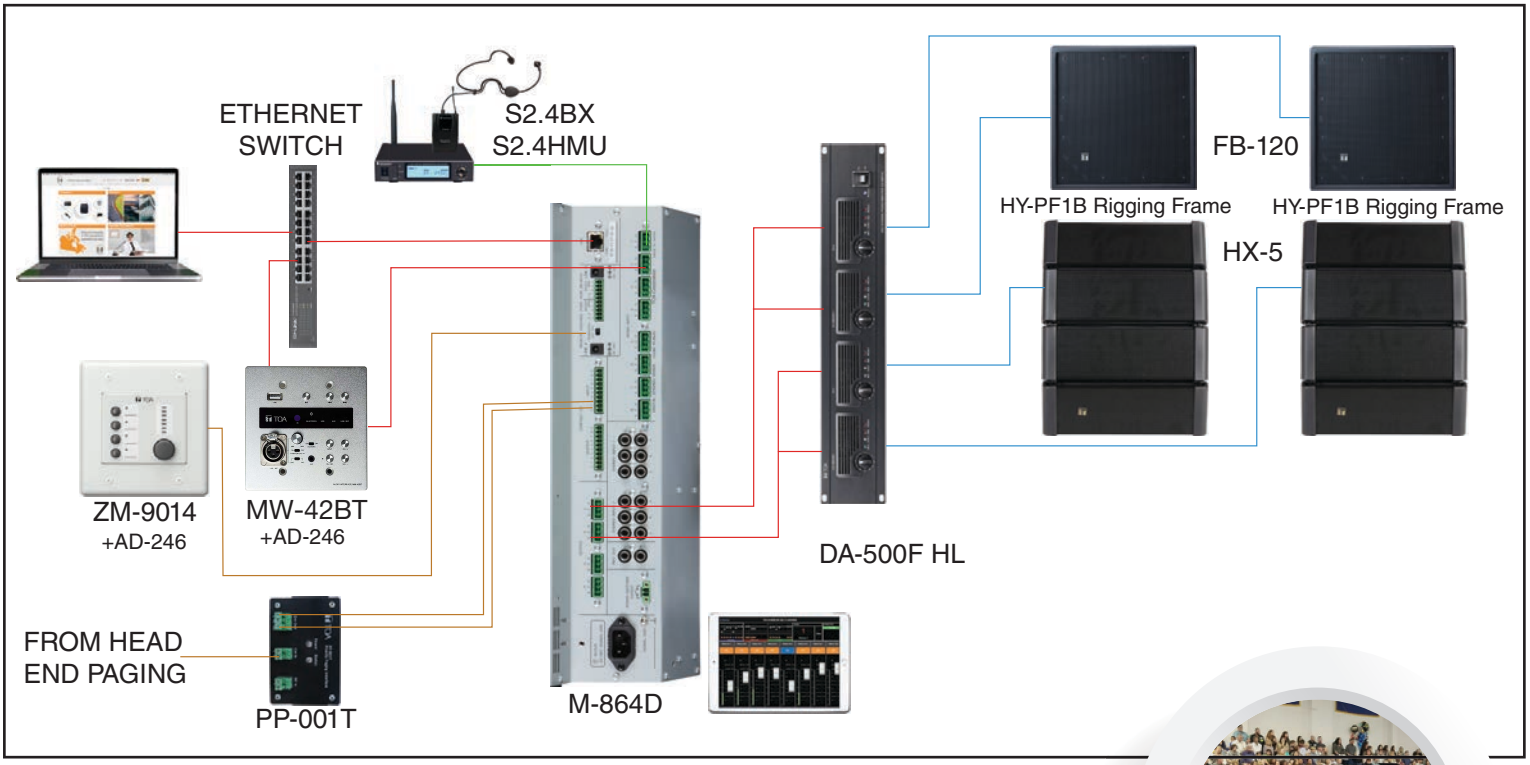

Take advantage of our cost-effective, flexible and highly durable equipment and outfit a gymnasium or multi-purpose room with high quality and well-respected audio solutions.

Premium Level Example

Example components

Audio Processing

M-8080D system

M-864D

A-800D Series

DSP / Mixer
- 6 x 1 to 8 x 8 Channels
- App and/or browser control
- Networkable
- Advanced audio control processing
- Remote Troubleshooting
- Voice Evacuation integration

Gym Sound Dispersion

HX-7
- Variable line array design
- 8 x low frequency speaker 4 x high frequency speaker

SR-T5
- FixedLine array design
- Impact Resistant

HS-1500BT
- Coaxial Array
- 15” woofer

Halls / Locker rooms

F-122CU2
- Quality Economy speaker
- Announcements & music

F-Series Box Speakers
- Extremely versatile
- 1000/1300/2000 - sizes

Horn Speakers
- Highly intelligible speaker
- Weather-Resistant

System Control

MW-42BT
- Bluetooth® input
- Microphone and line level inputs
- Priority on the Mic input

ZM-9014
- Four assignable buttons
- Controls Xpoint settings

M-800RC
- Volume and routing control
- Route any input to any output

Vocal / Speech

Microphones
- Clear intelligible output
- 5000 Series
- S2.4 series

TOA Advantage

- Free Design Assistance
- Five Year limited warranty
- American stocking
- American tech support
